

STAR CONSTRUCTION — RADIO BOARD LAYOUT

DRAWING IS APPROX. FULL SIZE

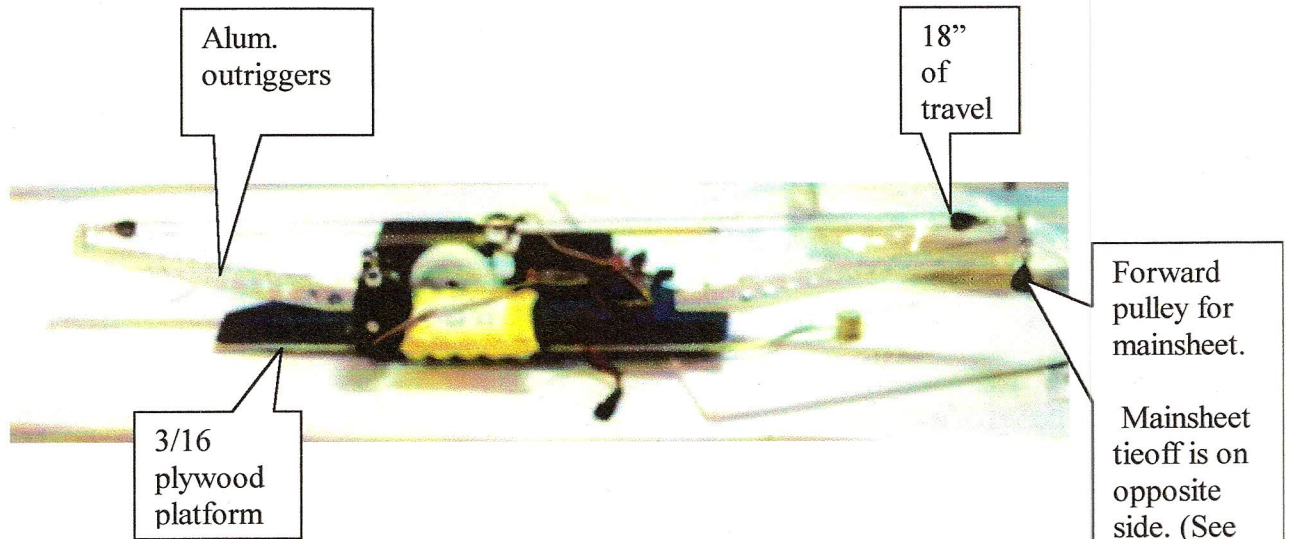

STAND ALONE RADIO BOARD

This radio board is assembled and completely operational outside of the boat.

The platform and the two outriggers are provided for \$40.00.

A sketch is provided to guide the builder when installing the winch, rudder servo, receiver, pulleys, etc.

The fully assembled radio board is slipped thru a 5" X 8 1/2" hatch opening and screwed to stringers glued to the hull. These screws should be as close to the base of the outriggers as possible.
